

STANDARD OPERATING PROCEDURE
NO. 50-3127-1

13 February 1963

AIRCRAFT ACCIDENT/INCIDENT INVESTIGATION

1. PURPOSE: To improve investigation procedures of aircraft incidents and accidents.
2. SCOPE: This procedure applies to all agencies operating and supporting military aircraft assigned to this location.
3. GENERAL: In the event of any unusual occurrence or aircraft damage, regardless of severity, the Detachment Flying Safety Officer will be promptly notified. In no event will maintenance be performed on the affected aircraft prior to release by the Flying Safety Officer.
4. RESPONSIBILITIES:
 - a. Deputy Commander for Material:
 - (1) Insure that all maintenance personnel comply with provisions of paragraph 3.
 - (2) Notify the Command Post immediately.
 - b. The Command Post will notify the Flying Safety Officer.
 - c. The Flying Safety Officer will proceed to the place of the incident, accomplish necessary investigative procedures and release the aircraft to maintenance upon completion of the preliminary investigation.
